

KRISHNA KUMAR PRAJAPATI

Lucknow, Uttar Pradesh | 9335280902 | krish.prajapati0902@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

Shree Ramswaroop Memorial University

Master's in Computer Applications

Lucknow, Uttar Pradesh

Graduation Date: Jul 2026

Makhanlal Chaturvedi Rashtriya Patrakarita

Bachelor's Degree in Computer Applications

Azamgarh, Uttar Pradesh

Graduation Date: Jun 2024

WORK EXPERIENCE

42Peaks

Data Science Specialization

Lucknow, Uttar Pradesh

Aug 2025 - Dec 2025

- Led the development and deployment of 5 real-time machine learning models, resulting in a 30% improvement in predictive accuracy and enabling faster decision-making processes across operational teams.
- Conducted comprehensive exploratory data analysis and feature engineering on diverse datasets, increasing model efficiency by 25% and reducing computational time by 15%.
- Mastered advanced Python libraries such as Pandas, Matplotlib, and Scikit-learn to streamline data manipulation workflows, enhancing project delivery speed by 20% and supporting the successful implementation of AI-driven solutions.

PROJECT EXPERIENCE

42Peaks

Sales Forecasting

Lucknow, Uttar Pradesh

Sep 2025 - Sep 2025

- Using past data, time-series models were created to predict future sales trends.
- To improve forecasting accuracy, feature engineering and model assessment approaches were used.
- Provided data-driven insights for inventory efficiency and strategic business planning.

Forecast for Car Prices

Oct 2025 - Oct 2025

- Regression models were created to forecast automobile pricing based on important characteristics including brand, mileage, year, and fuel type.
- Performed performance review, feature selection, and data cleansing to produce accurate forecasts.
- Made efficient use of Python modules for model construction and visualization in order to analyze pricing trends.

Identification of Parkinson's Disease

Nov 2025 - Nov 2025

- Developed a classification model using biomedical voice measures to identify Parkinson's illness.
- For model optimization, EDA, data normalization, and feature significance analysis were carried out.
- High accuracy was attained with machine learning algorithms, assisting in the early detection of diseases..

SKILLS & INTERESTS

Skills: Exploratory Data Analysis (EDA) | Data Cleaning & Preprocessing | Statistical Analysis | Hypothesis Testing | Feature Engineering | Data Interpretation | Regression Models | Classification Models | Predictive Modeling | Model Evaluation & Optimization | Recommendation Systems | Python | Data Visualization Libraries | Statistical Computing | SQL | Power BI | Panda | Advance Excel | Seaborn | Matplotlib | Scikit-learn | Microsoft Office (Excel, Word, PowerPoint)

Interests: Data Analysis, Data Science, Machine Learning.
