

KRISHNA KUMAR PRAJAPATI

Lucknow, Uttar Pradesh | 9335280902 | krish.prajapati0902@gmail.com | LinkedIn: krishna-kumar-prajapati-9a9327355 | GitHub: Krish9335

PROFESSIONAL SUMMARY

Enthusiastic Data Science and Machine Learning professional with hands-on expertise in Exploratory Data Analysis (EDA), data cleaning, statistical modeling, and predictive analytics. Demonstrated ability to develop machine learning algorithms for classification and regression tasks while transforming raw data into actionable insights through advanced data visualization. Strong foundation in statistical concepts, model evaluation, and data-driven decision-making. Passionate about leveraging AI and ML techniques to solve real-world business problems while staying current with emerging technologies in data science.

EDUCATION

Master's in Computer Applications

Sri Ramswaroop Memorial University, Barabanki | August 2024 – July 2026

Bachelor's Degree in Computer Applications

Makhanlal Chaturvedi Rashtriya Patrakarita National University of Journalism, Azamgarh | August 2021 – June 2024

PROFESSIONAL EXPERIENCE

Data Science Specialist

42Peaks, Lucknow, Uttar Pradesh | August 2025 – December 2025

- Completed intensive specialization in Data Science, AI, and Machine Learning with focus on applied methodologies
 - Developed and deployed real-time machine learning projects demonstrating practical proficiency
 - Gained hands-on experience in Exploratory Data Analysis (EDA), feature engineering, and machine learning implementation
 - Mastered Python libraries for data manipulation, visualization, and model development
-

TECHNICAL SKILLS

Data Science & Analytics: Exploratory Data Analysis (EDA) | Data Cleaning & Preprocessing | Statistical Analysis | Hypothesis Testing | Feature Engineering | Data Interpretation

Machine Learning: Regression Models | Classification Models | Predictive Modeling | Model Evaluation & Optimization | Recommendation Systems

Programming & Tools: Python | Data Visualization Libraries | Statistical Computing | SQL | Power BI | Panda | Advance Excel | Seaborn |

PROJECTS

Netflix Movie Recommendation System

- Engineered a content-based recommendation model utilizing cosine similarity metrics to match user preferences with movie attributes
- Performed comprehensive data cleaning and feature extraction on title, genre, rating, and user preference data
- Created data visualizations to identify genre trends and audience preference patterns, enabling data-driven content insights
- Results: Successfully built production-ready recommendation engine demonstrating practical application of machine learning concepts

Student Performance Prediction

- Developed regression models to predict student academic performance using demographic and academic feature data
 - Conducted in-depth Exploratory Data Analysis and correlation analysis to identify key performance drivers
 - Implemented robust data handling techniques to address missing values and data quality issues
 - Evaluated model performance using industry-standard metrics (Mean Squared Error, R^2 Score) achieving strong predictive accuracy
-

PROFESSIONAL STRENGTHS

- Strong analytical mindset with proven ability to extract meaningful insights from complex datasets
 - Excellent problem-solving skills with experience in end-to-end ML project development
 - Fast learner with passion for staying updated with latest trends in AI and data science
 - Detail-oriented approach to data quality, model validation, and documentation
 - Strong communication skills to translate technical findings into business-relevant insights
-
